

Bhushanam Damiseti

AI Engineer | LLM Applications | RAG Systems | Python | Generative AI
bhushanam2004@gmail.com | +91 9390782043 | Vizianagaram, AP — Open to Relocation | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year MCA graduate with production experience building LLM-powered applications, RAG pipelines, and Generative AI systems. Shipped a hybrid retrieval system with 2.48s average latency, achieving a 0.97 RAGAS faithfulness score, and ran a 30-question LLM evaluation suite with documented benchmark results. Proficient in Python, Lang Chain, Gemini API, Chroma DB, and FastAPI. Built and deployed AI systems publicly on Hugging Face Spaces with full end-to-end ownership from design to production.

SKILLS

- **Languages:** Python, TypeScript, JavaScript, SQL
- **AI / LLM:** Lang Chain, RAG (Retrieval-Augmented Generation), Prompt Engineering, Gemini API, Chroma DB, BM25, Cross Encoder Reranking, LLM Evaluation (RAGAS), Google text-embedding-004
- **Frameworks:** FastAPI, Stream lit, React 18, Next.js
- **Databases:** PostgreSQL, Chroma DB, SQLite, Supa base
- **Tools & Cloud:** Docker, AWS (EC2, S3, IAM, CloudWatch), Git, GitHub, REST APIs, HTML5, CSS3, Hugging Face Spaces

PROJECTS

Hire Ready — *React 18, TypeScript, Supa base Edge Functions, Gemini 2.5 Flash, Deno* 2025–2026

- Designed agentic prompt workflows that adapt question difficulty based on role and user response history, reducing static question repetition across sessions via Gemini 2.5 Flash
- Shipped a production AI interview prep platform across 112 commits, applying object-oriented TypeScript patterns for component architecture, state management, and REST API integration with Supa base Edge Functions

PDF RAG Chatbot — *Python, Lang Chain, Chroma DB, BM25, Gemini 2.5 Flash, Stream lit* 2025

- Built a hybrid Retrieval-Augmented Generation (RAG) pipeline combining BM25 keyword search and Chroma DB vector retrieval with Cross Encoder reranking — handles ~140,000 characters (167 chunks) with 2.48s average retrieval latency
- Hardened for production defends against HTML/script injection, handles corrupted PDFs and API rate-limit exceptions with non-destructive UI error banners; deployed on Hugging Face Spaces
- Evaluated RAG pipeline with the RAGAS framework, achieving a 0.97 faithfulness score across test queries, confirming near-zero hallucination against source documents

Ollive AI — **LLM Evaluation Platform** — *FastAPI, Next.js, Gemini 2.5 Flash, Qwen2.5-0.5B, SQLite* 2025

- Designed and ran a 30-question evaluation suite comparing Gemini 2.5 Flash and Qwen2.5-0.5B across hallucination, bias, and safety — Gemini 2.5 Flash scored 100% vs Qwen2.5-0.5B at 86.7%, surfacing concrete model selection trade-offs
- Built a FastAPI backend with streaming response support and a Next.js frontend for real-time side-by-side model comparison; deployed on Hugging Face Spaces
- Stored evaluation runs in SQLite with structured schema enabling trend analysis across question categories and model versions

EXPERIENCE

Codec Technologies Mar 2026 – Apr 2026

Remote | AICTE-Approved | Stack: Fast API, React, TypeScript, PostgreSQL, Supa base, Docker, AWS

- Delivered 3 production releases in 8 weeks — built 4 async Fast API endpoints with PostgreSQL and bcrypt authentication, cutting average API response time by 35%
- Containerized the full application with Docker and deployed to AWS EC2, achieving zero rollbacks across all 3 releases over a 6-week sprint cycle
- Implemented JWT-based role access control securing data for 200+ test users, with zero reported security incidents throughout the internship

Adhoc Network Company Feb 2024 – Apr 2024

Visakhapatnam | Stack: AWS EC2, S3, IAM, CloudWatch, Agile

- Configured EC2, S3, and IAM roles with least-privilege policies; monitored 5 instances via CloudWatch, reducing mean incident response time by 40%
- Authored 8 operational runbooks cutting average incident resolution time from 45 to 18 minutes, enabling 3 new engineers to onboard with zero configuration errors

EDUCATION

Vignan's Institute of Information Technology Oct 2024 – Jul 2026

Master of Computer Applications (MCA) | CGPA: 7.72 | Visakhapatnam, India

Aditya Degree College Jun 2021 – Apr 2024

Bachelor of Science in Computer Science | CGPA: 7.27 | Vizianagaram, India
