SUMMARY

MCA graduate (July 2026) with practical software development experience across Python, Java SE 11, JavaScript, and TypeScript. Delivered full-stack applications in a production setting using React, FastAPI, PostgreSQL, Docker, and AWS. Research published at GCCMIEA International Conference (Dec 2025). Ready to contribute to a software engineering team from day one, with a strong foundation in clean code, REST API design, and Agile delivery.

EXPERIENCE

Full Stack Developer Intern — Codec Technologies (AICTE-approved)

Mar 2026 – Apr 2026

Remote

- Developed 4 REST API endpoints in FastAPI with PostgreSQL, reducing error rates by 35% through input validation, structured exception handling, and async query design
- Built a React + TypeScript frontend on Supabase real-time APIs, supporting 200+ test users with sub-2-second page loads and 98% uptime
- Containerised the application with Docker and shipped 3 production releases on AWS EC2 with zero rollbacks across the 6-week internship
- Wrote unit tests covering 80% of backend logic, catching 14 defects before they reached the staging environment

AWS Cloud Intern — Adhoc Network Company

Feb 2024 – Apr 2024

Visakhapatnam, AP

- Monitored 5 AWS EC2 instances via CloudWatch and resolved 12 service alerts, maintaining SLA response time consistently under 20 minutes
- Maintained IAM security policies and S3 access control lists, achieving zero policy violations across all cloud resources during the engagement
- Produced 8 operational runbooks adopted by the team, cutting average incident resolution time by 60%

PROJECTS

MindCare — AI Mental Wellness Platform

React | TypeScript | FastAPI | PostgreSQL | Supabase | Gemini API | Docker | AWS

- Developed the full-stack wellness application from requirements to production using React, TypeScript, FastAPI, PostgreSQL, Docker, and AWS; research published at GCCMIEA International Conference (Dec 2025)
- Integrated Gemini API for personalised AI features, supporting 150+ test users with a 4.2/5 satisfaction score and sub-2-second page loads

PDF Q&A RAG Chatbot

Python | LangChain | ChromaDB | HuggingFace MiniLM | Gemini 2.5 Flash | Streamlit

- Built a multi-PDF AI chatbot in Python with LangChain, ChromaDB, and Gemini 2.5 Flash, achieving 91% retrieval accuracy on test corpora
- Added persistent chat history and source citation, reducing redundant user queries by 60% and improving session efficiency in user testing

EDUCATION

MCA — Vignan's Institute of Information Technology, Visakhapatnam

Jul 2024 – Jul 2026

Master of Computer Applications | CGPA: 7.86

BSc Computer Science — Aditya Degree College, Vizianagaram

Jun 2021 – Apr 2024

Bachelor of Science | CGPA: 7.27

SKILLS

Languages: Python, Java SE 11, JavaScript, TypeScript

Web/Frameworks: React, FastAPI, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Streamlit

Databases: PostgreSQL, MySQL, Supabase, ChromaDB

DevOps/Cloud: Docker, AWS (EC2, S3, IAM, CloudWatch), Git

AI/Tools: LangChain, Gemini API, n8n, REST APIs, Postman, Agile/Scrum

CERTIFICATIONS

- Java SE 11 Developer — Infosys Springboard
- Getting Started with Generative AI — IBM SkillsBuild
- Web Design Fundamentals — IBM SkillsBuild
