SUMMARY

MCA graduate (July 2026) with full-stack development experience across React, TypeScript, FastAPI, Node.js, and PostgreSQL. Completed an AICTE-approved internship delivering production-ready features with Docker and AWS. Certified in Java SE 11 (Infosys Springboard) with working experience in Python and JavaScript. Research published at GCCMIEA International Conference (Dec 2025). Seeking Java or Full Stack Developer roles with teams building scalable, maintainable web applications.

EXPERIENCE

Full Stack Developer Intern — Codec Technologies (AICTE-approved)

Mar 2026 – Apr 2026

Remote

- Developed 4 production REST API endpoints in FastAPI with PostgreSQL, reducing API error rates by 35% through structured request validation and exception handling
- Built a React + TypeScript interface consuming Supabase real-time data, cutting client reporting time by 3 hours per week across 200+ active test users
- Containerised and deployed the full stack on AWS EC2 with Docker, maintaining 99.8% uptime across 3 production releases in a 6-week sprint cycle
- Delivered 6 features across 8 Agile weeks without a missed deadline, collaborating asynchronously with a distributed team across multiple time zones

AWS Cloud Intern — Adhoc Network Company

Feb 2024 – Apr 2024

Visakhapatnam, AP

- Managed 5 AWS EC2 instances and configured S3 storage policies, sustaining 99.9% uptime across the 3-month deployment window
- Set up CloudWatch dashboards and alert thresholds for 8 cloud services, enabling the team to detect and close 12 service incidents proactively
- Maintained IAM security policies and access documentation, achieving zero compliance violations across all audited cloud resources

PROJECTS

MindCare — Full Stack AI Wellness Platform

React | TypeScript | FastAPI | PostgreSQL | Supabase | Gemini API | Docker | AWS

- Built a full-stack mental wellness application with React, TypeScript, FastAPI, PostgreSQL, and Supabase, achieving a 4.2/5 satisfaction score from 150+ test users
- Integrated Gemini API for personalised AI recommendations and deployed on AWS with Docker; research published at GCCMIEA International Conference (Dec 2025)

PDF Q&A RAG Chatbot

Python | LangChain | ChromaDB | HuggingFace | Gemini 2.5 Flash | Streamlit

- Built a Streamlit web application with LangChain and ChromaDB backend, enabling semantic search across multiple PDFs in a single session
- Achieved 91% retrieval accuracy using HuggingFace MiniLM embeddings; source citation cut redundant user queries by 60% in testing

EDUCATION

MCA — Vignan's Institute of Information Technology, Visakhapatnam

Jul 2024 – Jul 2026

Master of Computer Applications | CGPA: 7.86

BSc Computer Science — Aditya Degree College, Vizianagaram

Jun 2021 – Apr 2024

Bachelor of Science | CGPA: 7.27

SKILLS

Languages: Java SE 11, Python, JavaScript, TypeScript

Frontend: React, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: FastAPI, Node.js, Express.js, REST API Design, PostgreSQL, MySQL, Supabase

DevOps/Cloud: Docker, AWS (EC2, S3, IAM, CloudWatch), Git, CI/CD

Tools: n8n, Postman, GitHub, Agile/Scrum, LangChain, Gemini API

CERTIFICATIONS

- Java SE 11 Developer — Infosys Springboard
- Getting Started with Generative AI — IBM SkillsBuild
- Web Design Fundamentals — IBM SkillsBuild
